Team Members: Emma Seligson (Project Owner/Scrum Master), Eva Lomazov (Scrum Master),
Tian Lun Lee, Brittany Lei, Gerome Deguzman

Revision Number: 1.2

Revision Date: January 23, 2018

Release Name: Silver Surfer Services 1.0

Release Date: March 15, 2018

High Level Goals

1. Silver Surfer Services Basics: Logo, Slogan.
    a. As a *Project Owner*, I want *a logo* so that *Silver Surfer Services can be easily recognized by users*.
    b. As a *Project Owner*, I want *a slogan* so that *Silver Surfer Services can be easily recognized by users*.
2. Chrome Extension with a Password/Email Wallet.
    a. As a *Senior*, I want *a database for my accounts and passwords* so that *I don't have to remember them every time I try to open one of my accounts*.
    b. As an *Admin*, I want *the database to self-update* so that *I don't have to add accounts manually*.
3. Messaging/Email System to notify specified Administrator about attempted downloads or other alerts.
    a. As an *Admin*, I want *to be able to sign up for emails/text notifications* so that *I can tell what my Senior is up to without having to physically check the extension*.
4. Chrome Extension with a web-download blocker that can only be overridden by an Administrator.
    a. As an *Admin*, I want *to be able to check the extension for all web-downloads blocked* so that *I can override them if necessary later*.
    b. As a Senior*,* I want *my admin to be able to override the web-download blocker remotely* so that *I do not have to wait to access my download*.
    c. As an *Admin*, I want *to be able to set certain websites to always allow all downloads* so that *I don't have to manually override them*.
    d. As an *Admin*, I want *to be able to set certain websites to never allow any downloads* just in case *it goes through the blocker's settings*.
5. Chrome Extension with a website blocker that can be set and overridden by an Administrator if necessary.
    a. As an *Admin*, I want *to be able to check the extension for all websites blocked* so that *I can override them if necessary later*.
    b. As a *Senior,* I want *my admin to be able to override the website blocker remotely* so that *I do not have to wait to access the page*.
    c. As an *Admin*, I want *to be able to set certain websites to never be blocked* so that *I don't have to manually override them*.
    d. As an *Admin*, I want *to be able to set certain websites to always be blocked* just in case *it goes through the blocker's settings*.

6. Creating a family hierarchy with an account name and multiple administrators and seniors as needed.
    a. As an *Admin*, I want *a login id specific to my Senior* so that *I only have to set up Silver Surfer Services once.*
    b. As an *Admin*, I want *to attach multiple administrators to my Senior's login id* so that *more than one administrator can check up on my Senior at a time.*
    c. As an *Admin*, I want *to create a family account with multiple seniors and administrators* so that *I can more easily set up website controls.*
7. Marketing Website that describes Silver Surfer Services and its features.
    a. As a *Project Owner*, I want *to create a website/blog for Silver Surfer Services* so that *my team can market the completed product and keep Admin updated on new Malware/Virus sites.*

User Stories

1. Sprint 1
    a. As a *Project Owner*, I want *a logo* so that *Silver Surfer Services can be easily recognized by users*.
        i. ES - 2
        ii. Goal #1
    b. As a *Project Owner*, I want *a slogan* so that *Silver Surfer Services can be easily recognized by users*.

        i.   PERSON - XXX UNITS
        ii.   Goal #7

Project Backlog

1. Administrative phone application that holds all administrative notifications from Silver Surfer Client: including messages, browser history, etc.
   a. As an *Admin*, I want *an iPhone app* so that *I can just check the app for new notifications.*
   b. As an *Admin*, I want *an Android app* so that *I can just check the app for new notifications.*
   c. As a *Project Owner*, I want *to create custom artwork* so that *the application is unique and functional while maintaining the Silver Surfer Services image.*
2. Chrome Extension with an Online Purchases Wallet.
   a. As a *Senior*, I want *to a safe and secure place to store my bank/credit card information* so that *I can make purchases online by myself.*
   b. As an *Admin*, I want *to approve all purchases made by my Senior* so that *I can make sure that they are not accidental.*
   c. As an *Admin*, I want *to be able to mark certain websites as "approved for purchases"* so that *I do not get bombarded by purchases that are constant.*
   d. As an *Admin*, I want *to be able to mark certain websites as "blocked for purchases"* so that *my Senior will not fall into known scams.*
